

SYNCO Properties Inc. today announced it has been awarded the property management assignment for the **Stadler Place Apartments** located in the Guilford College area of Greensboro, North Carolina. The property was acquired by Denver CO-based Interurban Wellington, LLP dba Stadler Place on January 20, 2016.

Constructed in 1986, Stadler Place is a 144-unit apartment community. It includes one and two bedroom floor plans, as well as a host of amenities.

This latest assignment adds to SYNCO Properties' existing management portfolio in the Triad area of North Carolina, bringing the total number of units under management to 854.

"We are pleased to bring Stadler Place into our Triad family of apartment communities" said Michelle Sanger, Director of Apartment Operations at SYNCO. "The location is outstanding and will complement our other properties in the area. Stadler Place is a fine apartment property as-is, but with the new owner's improvements, it will be even more attractive to our current and future residents."
